

GreenPass

PPC offers to its residential customers coverage of their electricity consumption with Guarantees of Origin from PPC Renewable Energy facilities with a new add on service, GreenPass. GreenPass is a complementary add on service which may be combined with all PPC electricity products for residential customers. When selecting the GreenPass product, the customer will need to sign a complementary contract to his/her electricity supply contract.

Charge for the Energy Product GreenPass Home

GreenPass is billed with a fixed monthly charge on the electricity bill.

Price €/ Month
0.95

Promotional Discount

Free charge for the first 3 months.

The monthly GreenPass charge for residential products concerns a period of one month (specifically 30 days). If meter reading concerns a different period, then the charge is calculated proportionally, using the coefficient $A = \text{billing days} / 30 \text{ days}$.

Price does not include 6% VAT.

The Pricelist is an informative text. The Greek version is the binding.
