

PPC myHome4All is the new variable rate home electricity product that rewards you for saving energy, with a 12-month term and without time commitment. With PPC myHome4All you ensure:

- The myHome4All reward in case of 15% energy saving by activating the myEnergyCoach digital service
- Participation in State subsidies
- 2% discount in case of automatic bill payment by standing order
- Free savings monitoring through the myEnergyCoach

Promotional Activity

Upon activation of the PPC myHome4All product from 01.07.2023, the PPC GreenPass service is provided free of charge for 4 months.

Clarifications

- PPC myHome4All is also provided to beneficiaries of the Social Residential Tariff (SRT), Solidarity Services Tariff (SST) and to Vulnerable Customers as well as to customers with an active Net Metering Agreement with PPC.
- The fixed fee is calculated proportionally using the coefficient A2 = billing days /30 days
- Night energy charges apply to customers who have a night meter installed and concern the quantity recorded in the reduced rate zone (night zone)
- The myHome4All Reward is granted when the customer achieves a 15% reduction in average daily consumption, compared to the consumption of the corresponding period of the previous year, and applies to customers with a daily consumption of more than 500 kWh/month, provided that the customer has registered for the myEnergyCoach online service.
- Where EFT = The State Energy Transition Fund
- More information on the PPC's discount policy (where applicable) can be found at www.dei.gr
- Based on the legislative framework as in force, PPC along with the electricity bills also collects various duties and taxes [VAT, Excise Duty (ΕΦΚ) and Special Duty 5%] and fees payable to third parties [Municipal Duties (ΔΤ), Municipal Taxes (ΔΦ), ERT fee (the Hellenic Broadcasting Corporation), Real Estate Municipal Duty (ΤΑΠ)], as defined by the State.

Regulated Charges for Customers without Hourly Metering¹
