

Basic Pricing: What is it?

After the expiration of the Fixed Price Product you have chosen and until you choose a new product for your electricity supply, you will be billed with the Basic Pricing which consists of a fixed charge, a Basic Supply Price, which depends on the cost of energy as this is formulated in Hellenic Energy Exchange, as well as the applicable regulated charges

More specifically, the Supply Charges (Competitive Part) are as follows

Fixed Fee (€/month)	5.0
Basic Supply Price (€/kWh)	$1.16 * TEA + 0.04000$

Where,

TEA is equal to the arithmetic mean of the Day-Ahead Market Clearing Price of period t (where t is the consumption period of the bill), published on the website of the Hellenic Energy Exchange (<https://www.enexgroup.gr/el/markets-publications-el-%20day-ahead-market>)

It needs to be clarified that the The fixed fee is calculated proportionally by applying the coefficient $A = \text{billing days} / 30 \text{ days}$

Regulated Charges without Hourly Metering¹

The Regulated Charges are approved by the State and apply to all customers using the National Electricity System, irrespective of the supplier they have selected
