Clarifications

- Where EFT = the state Energy Transition Fund
- The **Γ21B Tariff** is equivalent to the Business **Γ21**.
- Under the **Γ21 Business Tariff**, the charge for the energy consumed (€ per kWh) remains fixed, regardless of the level of consumption. The amount of the fixed fee is in all cases calculated proportionally, using the coefficient $A = \text{number of billing days} / 30 \text{ days}$
- More information on the PPC's discount policy (where applicable) can be found at www.dei.gr
- Based on the legislative framework as in force, PPC along with electricity bills also collects duties, taxes [VAT, Excise Duty (ΕΦΚ) and Special Levy 5%] and fees payable to third parties [Municipal Duties (ΔΤ), Municipal Taxes (ΔΦ), ERT fee (the Hellenic Broadcasting Corporation), Real Estate Municipal Duty (ΤΑΠ)], as defined by the State.
